Sex Female | Date of birth 23/07/1988 | Place of birth Barcelona

I am an **architect** with a special interest in designing urban spaces through a process that involves the community in the decision making stage of the project. This factor has led me to **work in both urban planning and architecture as well as in the field of education and community participation.**

PROFESSIONAL FIELD

Throughout my different jobs, I have become familiar with the **process and development of a project from beginning to end, encompassing the conceptualization, implementation and evaluation process.** I also have **acquired a strong sense of responsibility,** and I have learned to work both independently in times of conflict, and as a part of **cross-disciplinary working teams.**

WORK EXPERIENCE

May 2016 – July 2016

Architect
DRAU Arquitectes

During my stay at *DRAU Arquitectes* I worked on the developed design, technical design and the construction documents for an extension to a single family home in *Cambriis*.

- Work self-sufficiently.
- Great capacity for conflict resolution in terms of project design.
- Knowledge of building code issues for housing and general construction.

March 2016 – June 2016

Architect and community outreach planner
Raons Públiques

My role in *Raons Públiques* was to conduct needs analysis and facilitate workshops with adults and children, in order to be used in the design of future urban projects. I also worked as a community educator providing information about all this participation process.

- Facilitate and guide groups of people through planning processes in a collective manner.
- Mediate and provide support for conflict situations between groups.
- Identify key proposals and ideas of the group member's debate.

March 2016 – May 2016

Architect
Lluís Comerón Arquitectes

My job included the design process from the developed design, through the technical design and finally the construction documents for the restoration of two apartment buildings on *Rambla Catalunya 107-109*.

- Understand the user's future needs in order to design the new spaces.
- Coordinate the structural engineers and the technical architects for the mechanical system at the level of developed design.

March 2015 – July 2015

Architect

Arkspai 2G

I did the developed design, the technical design and the construction documents for the rehabilitation of an apartment to create the new *Mafer* offices. In addition to this, I was co-participant in the competition to build a mosque in Reykjavik, participating in the creation and the design of the proposal.

- Oversee the entire building process.
- Create design proposals that satisfy both the aesthetic and technical demands of the project.
- Work in a responsible manner in compliance with all of the deadlines.

March 2013 – December 2015

Architect, educator and member of the work cooperative El Globus Vermell

El Globus Vermell

As a member of *El Globus Vermell* I developed diverse projects: I did the book *Barcelone; la Ville des Marchés*; I carried out workshops and guided visits for children and adults in different museums, I conceived and led community participation activities and I created and implemented urban installation.

- Create, organize and manage a cooperative working project.
- Coordinate of working teams.
- Conceptualize, implementate and evaluate diverse project typologies.

EDUCATION AND TRAINING

2006 – 2014

Master's degree in Architecture

Universitat Politècnica de Catalunya

LEVEL 7

2010 – 2011

Exchange program

Universitat de Granada

Other courses

- The participation of a collective city (ASF, 2016).
